

S. 320, National Earthquake Hazard Reduction Program Reauthorization Act of 2025

As ordered reported by the Senate Committee on Commerce, Science, and Transportation on April 30, 2025

By Fiscal Year, Millions of Dollars	2025	2025-2030	2025-2035
Direct Spending (Outlays)	0	0	0
Revenues	0	0	0
Increase or Decrease (-) in the Deficit	0	0	0
Spending Subject to Appropriation (Outlays)	20	596	625
Increases <i>net direct spending</i> in any of the four consecutive 10-year periods beginning in 2036?	No	Statutory pay-as-you-go procedures apply?	No
		Mandate Effects	
Increases <i>on-budget deficits</i> in any of the four consecutive 10-year periods beginning in 2036?	No	Contains intergovernmental mandate?	No
		Contains private-sector mandate?	No

S. 320 would amend the Earthquake Hazards Reduction Act of 1977 to make changes to the National Earthquake Hazards Reduction Program, an interagency program focused on reducing earthquake-related risks to life and property. S. 320 also would authorize appropriations of \$161 million annually for fiscal years 2025 through 2028 for the U.S. Geological Survey, the Federal Emergency Management Agency, the National Science Foundation, and the National Institute of Standards and Technology to implement the program.

Additionally, the bill would require the agencies to develop best practices to assist state, local, and tribal governments with creating inventories of critical buildings and structures, and with developing evacuation plans and expanding early warning systems. The agencies also would be required to report to the Congress every two years about activities related to the program.

CBO assumes that the bill will be enacted near the end of fiscal year 2025 and that the authorized amounts will be provided for each year beginning in 2025. In 2024, the agencies allocated \$164 million for the program from funds provided in the appropriation acts for that year. Based on historical spending patterns, CBO estimates that reauthorizing the program

would cost \$596 million over the 2025-2030 period and \$29 million after 2030, assuming appropriation of the authorized amounts.

The costs of the legislation, detailed in Table 1, fall within budget functions 250 (general science, space, and technology), 300 (natural resources and environment), 370 (commerce and housing credit), and 450 (community and regional development).

Table 1.
Estimated Increases in Spending Subject to Appropriation Under S. 320

	By Fiscal Year, Millions of Dollars						2025-2030
	2025	2026	2027	2028	2029	2030	
U.S. Geological Survey							
Authorization	92	92	92	92	0	0	368
Estimated Outlays	17	137	90	89	23	3	359
National Science Foundation							
Authorization	54	54	54	54	0	0	216
Estimated Outlays	2	30	39	46	43	26	186
Federal Emergency Management Agency							
Authorization	9	9	9	9	0	0	36
Estimated Outlays	*	4	5	7	7	5	28
National Institute of Standards and Technology							
Authorization	6	6	6	6	0	0	24
Estimated Outlays	1	9	6	6	1	0	23
Total Changes							
Authorization	161	161	161	161	0	0	644
Estimated Outlays	20	180	140	148	74	34	596

* = between zero and \$500,000.

The CBO staff contact for this estimate is Kelly Durand. The estimate was reviewed by H. Samuel Papenfuss, Deputy Director of Budget Analysis.
